**Re: Performance of Your Combustion Catalyst Green Plus**

Dear Mike,

We are very happy to inform you that we have now been using your Green Plus Combustion Catalyst for approximately twelve months in all of our trucks. We have been very happy with the results of your product.

Our drivers are reporting back that:

- Their trucks are more powerful.
- Engine runs smoother.
- Able to pull a gear higher going up hill.
- Starting more easily.
- Definite increase in fuel economy.

Each of our trucks does approximately 10,000 km per month and 19 of our vehicles have traveled 200,000 km over the past year. During this demonstration our trucks have traveled over 6.5 million kilometers. While using Green Plus, we have experienced no maintenance problems or difficulties with our engines that could in any way be attributed to this product.

I have also noticed that the black smoke has greatly reduced from our trucks. Based on this success, we are now proceeding to purchase your product on a long-term basis at your stated terms.

We are impressed with the way you persisted in optimizing the product for heavy-duty trucking applications. Now that you are achieving such a positive result, we are more than happy to endorse your product's performance. Wishing you all the success with Green Plus.

Sincerely yours,
