Confirmation

Dear Mr. Zarbl,

Herewith we confirm the execution of the following fuel consumption tests with and without Green Plus with Mercedes Benz Actros Euro 5/Euro 6 (YOM 2005/ 11 / 12). We conducted the tests on the 29th of September 2012 and on the 11th of October 2012. In addition to that we at the same time successfully completed a test over a time period of four weeks!

At all test runs the results were given through the actual amount of refilled fuel. The tests were conducted with three different vehicles at the same time at full load. The first runs were conducted without Green Plus to establish a reference level. At the following test runs the vehicles with the worst results were filled with Green Plus to get a head-to-head record!

The vehicles filled with Green Plus showed at all tests a fuel economy of 8% - 15%!

The exact records of all test runs are available and can be examined at any time!

If you have any further questions feel free to contact us!

Sincerely yours,

p.p. Bernhard Wasner
-Assistent General Manager-
